

Consent for services

Child's Name: Zayd Ahmad Haroon

Child's DOB: Feb 24, 2015

Co-ordinator : Ms. Sumithra Shailesh

Date : 14/09/2022

We understand that we are enrolling in our child CoMPASS program, through which Elina would provide the following services.

1. A program plan that gives a broad overview of the areas that we will work on for our child.
2. Single point contact for facilitating communication among all the stakeholders and therapists mentioned in the referral form, who would be working with the child.
3. A monthly review with the professionals/ therapist/ school working for the child for 8 months.
4. A monthly review with parents to discuss the progress of the child for 8 months.
5. Need-based counselling sessions (not more than once in a month) with parents to clarify the direction of efforts and progress of the child.

Elina would not be providing the following services

1. No direct influence in school admissions or their operational policy.
2. Any direct therapy or intervention session which includes the service payment.
3. Any medication or related services
4. Any transport or logistic services

We have met the concerned personnel at Elina and understood the reason(s) for their recommendation.

In return, it is understood that:

- We would fill the daily feedback tracker regularly as it is a crucial feedback mechanism and Elina can be aware of any change in the learning environment, the health of the child/family wellbeing/trauma during the engagement period. In case of such dire situations, we would inform Elina through mail on the same.
- In case we are not satisfied with the service of the professionals/therapist, Elina will look for options or other therapists but may not guarantee alternatives.
- We understand that Elina is an advisory and referral centre and that Elina cannot be held responsible for any adverse effect that may arise from the improper implementation of the guidance. We would be responsible and observant of the child's discomfort and safety during the therapy sessions and notify Elina immediately in case we notice anything unusual or inappropriate.
- We would keep Elina informed about any relocation of residence or change of therapist.
- The review process will get affected if there is an uninformed change in the intervention plan.

We understand that we have to pay a fee of Rs 20000 at the beginning of the program which is non-refundable.

We understand that this is a genuine attempt to integrate services for my child to create a conducive learning environment. In this process, it is the effort that is more tangible than the outcome itself. We also understand that the child's progress is a gradual outcome of this process that can neither be guaranteed nor be bound within a specific timeline.

We understand that the information collected by Elina will be shared with people trusted by Elina. We hereby declare that the information that we have shared and will be sharing is true to our knowledge.

The enrollment of the child would be either at the beginning of the month that follows the date in which the fee is paid. This consent remains in effect till the end of 8 months from the date of enrollment.
