

Consent Form

Welcome to Elina! We are excited to join you in your journey with your neurodivergent child. Please carefully review and sign the following consent form to understand our services and how we can support your child's development.

Our Vision: "Diversity makes nature – and society – stronger, more resilient, and more interesting. Neurodiversity is no different."

Our Mission: "Our goal is to co-create an ever more empathetic and inclusive society that embraces the potential and wonder of neurodiversity. We do so by designing and implementing customized programs that facilitate the inclusion of neurodiverse individuals at home, school, workplace, and every environment that they are part of; creating a roadmap for parents to understand the path ahead in this unplanned journey; and pooling in resources and information to amplify the work that is being done towards inclusion, taking a lifespan approach."

About Elina:

We are an advisory and referral centre that provides valuable guidance towards independence and learning for your child.

We do not directly influence admission in any schools, or provide any direct therapy or intervention session, medication, transport, or logistic services.

Our philosophy is that "Any child can learn." We can ensure that no child will be left behind if we identify their strengths and challenges, recommend the right learning environments, connect them to a team with the right expertise, establish proper communication channels among stakeholders, and coordinate the child's care and development.

Our SAIL program helps identify your child's strengths and stretches, recommend the right learning environments, and connect them to a team with the right expertise.

We use our CoMPASS program to make your child's progress visible and coordinate their care and development.

We handhold and shadow parents through this journey by providing them with a structured and objective process that highlights the impact of consistency and awareness.

We monitor, design and alter your child's environments through the impactful and focused work done by professionals like therapists, special educators, and teachers.

By signing up with us, you understand and agree that we do not provide any direct therapy or intervention sessions.

We pool resources and information to amplify the work being done towards inclusion, taking a lifespan approach.

You are paying a sum of Rs.900/- towards consultation during the overview meetings and a SAIL guide that will be shared at the end of it.

Thank you for your understanding and cooperation in creating an empathetic and inclusive society that embraces the potential and wonder of neurodiversity.

If you have any questions or concerns, please do not hesitate to contact Ms Sumithra Shailesh at 9840802941.

Please read the above information carefully and feel free to contact us if you have any further questions. If you agree to the terms and conditions,please sign below:
